

AMERLUX LEAD TIMES

- Lead Times Apply to Standard Cut Sheet Configurations.
- For a specific on-site date, please provide this information at the time you send your purchase order.
- Orders with multiple lead times are processed to ship together at the latest lead time. If any portion must ship ahead, please note on your PO so we may process accordingly (please note this would be processed on separate SOs). Please note: Depending upon the size of your purchase order, split shipment may impact your freight charges.
